## Remarks

Robert Grammer & William Still, two men reported above "for duty" gave themselves up, at this post, as Deserters. Grammer reported on the 15th day of December 1815, & says he deserted from Fort Covington, near Baltimore, on the 3rd day of June 1815 from Capt. Jangster's Company of the 12th Regt. U.S. Infantry.

Still reported on the 29th day of December 1815; says he belongs to Capt. Bradley's Company of the 2nd Regt. U.S. Infantry & that he deserted on the 17th day of July 1815 from a cantonment on Lake Ponchartrain. I am possessed of no other information relative to the two men just spoken of.

## *DIVISION ORDERS.*

ADJUTANT GENERAL'S OFFICE,
BROWNVILLE, 22D MAY, 1816.

THE companies of the regiments of *Light Artillery* and *Infantry* in the Northern Division, will be permanently designated by the first letters of the Alphabet—in the order in which the captains in each regiment stand in the register, completed to the 17th instant—placing the two light companies in the Infantry first, as follows:—A and B (for the select companies in the Infantry) C, D, E, F, G, H, I, and K, for the battalion companies. The sixteen companies of *Artillery* will also be lettered, in the order of seniority of the captains in this Division.

These designations are never to be changed, with the change of captains—and after a company book is opened, such company is not to be broken up. The transfer of individual men and of subalterns may be made by the Colonel, with the consent of the Captains concerned—and a transfer of officers or men, by the commanding officer of the Department, on the application of the Commander of a regiment or battalion—Except, that no transfer will be made from one battalion or regiment to another, but by the General of Division.

The Light companies, after being selected by the Colonel, will be permanent. They will be constantly improved, by selection from recruits, & the mode of transfer herein authorized, with as little prejudice to the battalion companies, and as little excitement of jealousy among the officers, as possible. When the vacancy of an officer occurs, in a light company, it will be supplied by the Colonel's selection.

THE appointment of Adjutants and Quarter Masters of Regiments and battalions, will be announced in *Department orders*, on the nomination of the Colonels respectively of *Light Artillery* and *Infantry*, and the Chiefs of battalions of *Artillery*.

Whenever the Head Quarters of a department, of a regiment or battalion, are changed, immediate notice thereof, will be sent to this office.

No new post will be established, but by order of the General of Division. Commanding officers of departments may change the garrisons of their commands, where it may be expedient, conforming to the principle of rotation and the preference due to seniority in the first instances. This should be done, as nearly as may be, in the month of April, yearly.

Hereafter there will be no acting staff officers. The regular staff duties must be done by those appointed by law—except temporarily, in the staff of a regiment or a battalion, and, where no staff officer is present, of a garrison.—When a station should be declined by officers, it may be filled by weekly detail.

Field officers commanding, will use their proper staff. If absent from their corps, the staff stations left, if indispensable, may be supplied, under the foregoing provision. This regulation is necessary to the proper responsibility, in the discharge of the staff duties of a command.

5243

THE practice of *general courts martial* is of high importance to the army, for decisions on rules of discipline, and in martial law generally—and for the administration of justice. The uniformity of their proceedings much depends upon the experience and permanency of Judge Advocates.

THE Judge Advocate serving in the 3d depart. will also do the duty for general courts martial which may be ordered by the commanding officer of the 4th department—who will, previously to ordering a court, ascertain whether one be sitting in the other department.

Judge Advocate *Winder* is arranged to the 2d Department, and will report in person to the commanding general thereof.

AN officer will be appointed in *Division orders* to do the duty of judge advocate permanently in the 1st department, under the provisions of the law.

Judge Advocate *Duvall* has been assigned to the 5th department.

These Judge Advocates will attend every trial by general courts martial ordered in their respective departments—and their travelling expences will be paid agreeably to regulation.

Judge Advocates will make report of each trial and sentence by the general courts martial on which they serve—after the manner of law cases—through the officer ordering the same, to this office.

AN officer may be confined in arrest and released, without a charge being prefered, by the commanding officer of his regiment or post—but. if the officer think himself wronged, a mode of appeal is provided for in the 35th Art. of War—though the officer is not entitled to a trial on charges, unless a prosecutor offers.

All *General*, *Division* and *Department* orders, are to be read once at a regimental parade, and once by an officer at a company parade, and those relating to the men, twice at a company parade, so that relieved detachments may hear them.

THE Articles of War will be read in like manner, those relating to the men three times—in the beginning of each *January* and *July* of each year.

Resignations may be forwarded to the War Department for acceptance, by the Commanding officers of Departments—making immediate report thereof to this office.

Commanders of Departments will forward to this office descriptive returns of soldiers who may be guilty of desertion—after the *form* transmitted by the Adjutant General—including those from recruiting parties within the respective departments—with a view to their being communicated to the several posts in the Division. Duplicates of these will be sent to the War Department.

A special report of the Adjutants and Quarter masters appointed to regiments, and to battalions of Artillery, and of the captains of light Infantry companies, will be made by the commanding officers of departments to this office.*

THE following reports and returns are required in conformity with the *regulations*, which are recognized by law as far as they are found applicable to

the service—and will take place of those heretofore directed from Head Quarters.

IN THE ADJUTANT'S DEPARTMENT.

1st sort. Monthly returns for the Department of war. A return of every company in service, made to fulfil the 19th article of war, will be transmitted directly to the Head Quarters of the regiment or b·ttalion in any part of the division, where a return will be made out from those of the latest date, monthly—signed by the commanding officer of such regiment or battalion, and forwarded by the commanding officer of the department, to the Adjutant and Inspector General.

All absent officers and men wherever they are, will send reports or be reported, at the end of every month, to the Head Quarters of the battalion or regiment in which they serve.

2d sort. Monthly returns, to be furnished by the Commanding officers of garrisons and regiments, of the same description with the 1st sort, to the commanders of Departments. Those by the commanding officer of a regiment, will exhibit such part of the regiment only, as is under his command.

3d sort. *Department returns*, made to exhibit the number of troops of each corps, in as many lines as there are different corps in the department, with one line for the staff, monthly to the Adjutant General of the size and form of the blank which he will transmit. (To enable the Adj. Gen. to make the returns required in the 4th section of his duties.) Battalions of Artillery will be reported seperately. Care must be taken that the alterations in number be accurately stated.

4th sort. *Department Returns* for the months of March, June, September and December, in each year, after the manner of the 3d sort—accompanied with lists of the names, rank and stations of officers serving in and belonging to the department; and explaining the changes of posts or officers within the last quarter--to the Adjutant General.

These will be accompanied with a duplicate of each monthly return of the *2d sort*, for the same months.

Officers having brevets, will be reported by their commissions in the line, with remarks of their brevets, if in command.

A duplicate of all reports made by commanders of regiments or detachments, and officers of Artillery, by present laws and regulations, to the Colonel of *Ordnance* will be transmitted through the commanders of departments, to this office.

Officers of the Ordnance department, being under the direction of the War Department in time of peace, will not be required to report the detachments or stores in their charge, nor be reported.

IN THE INSPECTOR'S DEPARTMENT.

The Inspector General, Colonel Wool, will enter upon the duties of his department at Head Quarters.

On his visiting the different posts in the division, for the purpose of Inspec-

tion, a return of such Inspection will be furnished him agreeably to regulation.

A duplicate of the *Muster and Inspection Returns* of companies, furnished to the Adjutant and Inspector General, will be transmitted at the end of every June and December, through the proper channel to the Inspector General.

Whatever reports the Assistant Inspectors General may have to make to the War Department, will be made through their Commanders, to the Inspector General.

The Inspector General will make special report of any deviation from Division orders, or the regulations of the War Office, which he shall at any time discover, or shall come to his knowledge in this Division.

HOSPITAL AND MEDICAL DEPARTMENT.

Quarterly reports of *sick*, (similar to form No. 2, in the regulations) will be made through the commanders of departments, to the Adjutant General's office, by every surgeon or senior mate of each post, regiment or garrison; who will also transmit therewith a duplicate of the quarterly returns of instruments, medicines, stores, &c. made to the Apothecary General. As these reports and returns are intended for the inspection of the surgeon at Head Quarters, in order more effectually to adapt the supply of medicines and stores to the nature of the prevalent complaints, the "*remarks*" in the reports, will particularly describe the diseases most prevalent, and state their probable causes; and in the returns, will state the quality of the medicines, stores &c. supplied, and the kind most in demand.

By order of Major General BROWN.

GENERAL ORDER.

The following, among the miscellaneous rules for the government of the army of the United States, adopted on the 1st of May 1813, and omitted in the subsequent edition of the rules and regulations, remains in full force, and will be respected accordingly, viz:

The transfer of officers will only be made by the War Department on the mutual application of officers, and in no case hereafter will an officer of any regiment or corps be put into another, where the transfer would prejudice the rank of any officer in such regiment or corps.

All proposed transfers, as above provided, will be reported through the commanding generals of division.

Department Orders

By a report from the D. M. General it appears that the store houses in the possession of the contractors, which are either Owned or hired by the Public are sufficient to contain rations for more than six Thousand men for three months — as the Government has it not in contemplation to Station that number of troops at New Orleans, and as the contractor is entitled by the Articles of the contract, only to stores sufficient to contain Provisions for three Months, for the troops actually stationed at each Post, the D. Master Genl. is instructed to furnish, until the pleasure of the commanding Genl. can be known, such stores only, as may be necessary to contain rations for three Months, for One thousand men. In all cases where stores hired by the Public for the use of the contractor, shall be occupied by Private individuals either as Officers, ware houses, or dwellings the facts will be reported to the accountant of the war department by the D. Master Genl., in Order that the necessary deductions may be made

5711

from the contractors accounts —

Fort Saint Johns will be reinforced by ten men from Capt Gray's company, Capt Gray will proceed thither, and assume the command, Lieut. Humphreys will have the entire direction of Fort St Charles, the detach of Infantry stationed there will be under his Orders —

Maj. Cleary in addition to the command of the Artillery of this department, will assume the command of the Post of New Orleans and its dependencies — including Fort St Philip, St John, and Petite Coquille. Officers commanding Posts will report to the Officers commanding the departments as heretofore, in addition to which, those under the direction of Major Cleary will make such reports to him as he may require

The Peninsula of Hampton Roads Virginia
and Intermittent
& Bilious Fevers. It is now a fact pretty well
established in medicine that wherever a country
is subject to the exhalations of marsh miasmata
that country is subject to disease. The situation
of Fort Monroe as well as the adjacent county
exhibits the most favourable opportunity for the
formation of this noxious matter. Intersperse with
small water courses emptying into the rivers it
affords a considerable portion of flat land
which is not only subject to be over flown by
the water of those streams, but the tides spread
up in many instances some miles from the rivers
and leaves laid in some places to a considera-
ble extent abounding in stagnant water. This exposed
to the Summers heat not only produces a decom-
position of the water, but favours the process
of vegetable putrefaction. The effluvia thus
formed and acting on the human body in
various ways produces in every country as far as
observation has gone the disease before named.
Although the Autumnal fall are the only sea-
sons in which Billious Fever is seen to much
extent, yet other diseases in other seasons not un-

frequently taken in the Bilious. The Cathartic
Calomel is of paramount importance in
the treatment of this disease, particularly the
Intermittent forms; and indeed to absolutely
necessary, that in many instances the
disease is totally unmanageable, until the al-
terative effect is produced by the use of Calomel
whereupon the patient immediately becomes con-
valescent
